Resting space does not include walk alleys for animal movement to and from feeding areas. Group pens for calves are usually fully bedded to provide as much dry resting space as possible.

<sup>a</sup> 8% slope (1in per ft)

<sup>b</sup> Assumes access to 10 ft wide scraped feed alley or paved outside lot

<sup>c</sup> House separately from older animals

<sup>d</sup> Groups up to six head in pens or super calf hutch

<sup>e</sup> Provide proper treatment for concentrated runoff
