CALF MAGNIFY

Magnify the power of whole milk. Calf Magnify is a high-protein whole milk additive to enhance nursery calf consistency, nutrition and performance.

Nutrition to fuel growth and support immune function

- Contains 30% protein, supplemental amino acids and 5% fat to increase the solids intake of calves fed whole milk
- Improves local gut function
- Supports immunity and feed efficiency with trace minerals and vitamins
- Easy to use: Economical low-inclusion feeding rate of ¼ pound per calf per day

Selected ingredients for calf performance

Plasma: Improves lower gut function and performance under immune challenge

Balanced supplemental amino acids: Lysine and methionine promote efficient growth and decreased inflammation

Organic trace minerals: Se, Cu, Zn, Co, Fe, and Mn support growth and muscle development, energy metabolism, and immune function

Enhanced vitamin nutrition: Vitamins A, D, E, and B vitamins stimulate feed intake and growth

Yeast cell wall (MOS): Binds pathogens and stimulates immune function

Bovatec®: Prevents coccidia growth

ClariFly®: Feed-through larvicide for fly control

Available with:
Bovatec
Bovatec/ClariFly
