# INNER SHIELD PLUS

Inner Shield Plus is a calf nutritional supplement added to whole milk or milk replacer to increase gut function and performance prior to or during stress events.

## Economical and easy-to-use gut protection strategy

- Delivers 10 grams of globulin protein per day for less than \$1 per calf daily.
- Easy mixing and dosing: Add 3 ounces of Inner Shield Plus per calf per day to whole milk or milk replacer solution for 7 to 14 days.
- Each 50-lb bag contains enough doses for 19 to 38 calves (depending on feeding duration).

## Selected ingredients to protect and support gut function

### **Bovine globulin protein**

Inner Shield Plus delivers 10 grams of globulin protein per day to protect the calf's gastrointestinal tissue

### **Plasma**

Published research shows significant health and growth benefits when calves are supplemented with plasma-based proteins

### ***Bacillus subtilis***

Inhibits *Clostridium perfringens*, *Salmonella* spp. and *E. coli*

### ***Lactobacillus***

Supplements or re-establishes natural gut microflora

### **Yeast cell wall**

Reduces pathogenic bacteria's ability to attach and colonize in the intestinal tract

### **Methionine**

Protein synthesis and inflammation control

### **Zinc methionine**

Disease resistance, muscle development, appetite, and skin and hoof health

### **Selenium yeast**

Immune function and oxidative stress prevention

### **Vitamins A and D**

Required for bone and tissue growth and development
